

FRONTIERS EVENTS 2008

*For further information, please contact Monique Snippers:
m.a.b.snippers@utwente.nl or T. +31.53.489.4504 / +31.53.489.2228*

FRONTIERS RESEARCH MEETING 2008

June 23-26, 2008, Mövenpick Hotel, Heraklion, Crete

This year's research meeting will be partly combined with a meeting with Nano2Life.

- Contact person: Rolf Vermeij, r.j.vermeij@utwente.nl, Monique Snippers, m.a.b.snippers@utwente.nl
- For more information check the FRONTIERS website: www.frontiers-eu.org

PhD course/SRA meeting Biocompatibility / nanostructures

August 16-20, 2008, iNANO (DK)

- Contact person: Signe Osbahr, signe@inano.dk

Masterclass during Nanotech Northern Europe

September 23-25, 2008, Copenhagen (DK)

- Contact person: Holger Winter, hw@centech.de

2nd INASCON Student Conference 2008

September 27-30, 2008, iNANO (DK)

- Contact person: Signe Osbahr, signe@inano.nl

OTHER ACTIVITIES

1st International workshop on Label-free Biosensing

April 8-9, 2008, University of Twente, Enschede (NL)

The workshop content is dedicated to label-free sensing of biomolecular interactions where different methods and aspects of label-free sensing will be discussed by a wide range of experts.

- Contact person: Richard Schasfoort, r.b.m.schasfoort@utwente.nl
- More information: www.lfb2008.com or www.frontiers-eu.org

NanoBio-europe 2008

June 9-13, 2008, Barcelona (Spain)

The major focus of the NanoBio-Europe Conference is set on medical applications of nanobiotechnology, in particular the characterization of cellular processes, machinery and interaction to control, manipulate or manufacture molecules or supramolecular assemblies to improve human health.

NanoBio-Europe2008 innovations are expected to bring high added value to biotechnological and pharmaceutical industries - most of these innovations based on multidisciplinary collaborations with experts from life-science, micro- and nanotechnologies, material science, physics and medicine.
